p01	21	4-5 not often	5 yes, coding projects	user>past>continue>new idea>steps>continue	unsure what stars mean	4	☑	click 3rd star	Confused about star priority	4	☑	click "my move" > click check mark	confused on getting into project	4	☑	overall, satisfied, easy to navigate	didn't know that the projects are clickable	Note app on iphone you can immediately take notes	the new note button along with the logo	no	no	possibly	remove login page
p02	21	5 often	sign in with google > new idea > steps > continue	clicked 3rd star	easy	5	☑	click "my move" > click check mark	easy	5	☑	4/5 stars should match where you click	ability to sort stars when making new projects	comparable	rating "priority" feature	no	no	yes	adding heading to project and stars as "priority" on top, use arrow instead of bullet points for projects so user know its clickable more, and add due date for each project on the right side instead of knowing just 1 due date on the bottom
p03	22	5 often	sign in with google > new idea > steps > continue	straight forward	add project/priority for projects/ stars	4	☑	click "my move" > click check mark	convention	5	☑	better than others (apple note)	priority feature	no	no	yes	seeing steps without clickin into each projects
p04	21	5 yes, practically	sign in with google > new idea > steps > continue	nice ui, modern, change password to password	instinctively know stars > priority	5	☑	click 3rd star	great, simple	5	☑	this app has less features which is less confusing and stressful	top down order, matches place	can't switch tabs within project	just stars	switch tabs	yes
p05	26	5 yes, practically	user>past>continue>new idea>steps>continue	logical/ straightforward	went back to entry/back to listing> click 3rd star	5	☑	click "my move" > click check mark	separate screen to check stuff off	5	☑	straightforward overall, yes	no	liked priority	liked priority	no	if sort by deadline and priority is implemented
p06	27	5 yes, creative	user>past>continue>new idea>steps>continue	new idea hard to find yes 2 more finished out	assumed priority would be in edit section, could accidentally edit priority if on home screen	5	☑	click 3rd star	unsure if stars were clickable, had to make a gui	4	☑	pretty satisfied	the stars (make it more obvious they're clickable)	states/ progress is interesting	steps	no	figure	order listings by priority	yes 2 more finished out
